

Canada's Worst Adversity For Business Sagacity Is The Record Of Forest Fires

(By Robson Black)

The worst adversity for the business sagacity of Canadians is the record of forest fires. What's the record of fire in Canada? The loss of timber is estimated at \$1,000,000,000 a year. The loss of lumber is estimated at \$1,000,000,000 a year. The loss of timber is estimated at \$1,000,000,000 a year. The loss of lumber is estimated at \$1,000,000,000 a year.

Timely Suggestions

Seasonable Hints Which Are Worth Studying By The Farmer

Seasonable hints issued by the Dominion Experimental Farms Commission may timely suggestions, among which are the following:

Good markets for farm products are not to be gained, and most certainly can never be gained, unless our products show top quality.

Canada's per capita consumption of home products is not nearly as large as it might be were farmers to produce more and store more of their products. The average farmer in Canada consumes about 100 lbs. of foodstuffs per year. The average farmer in the United States consumes about 200 lbs. of foodstuffs per year.

The care of livestock during the winter months of autumn, and when the weather is cold, is of great importance. The farmer should be careful to keep his livestock in good health.

Livestock Train A Success

Attendance Far Exceeded Previous Trains Says Mr. Robertson

The Saskatchewan live livestock train, which left Regina on July 4, met with a successful trip, covering 1,782 miles, and the total attendance, which, according to Mr. J. C. Robertson, the stock commissioner, amounted to 15,120, far exceeded the attendance at either of the two previous live livestock trains, and was well in excess of the attendance at the live livestock train of 1922.

Tourist Traffic Increase

Traffic from U.S. to Canada Has Tripled Within Last Three Years

Tourist traffic from the United States into Canada has tripled within the last three years, according to Mr. H. H. C. Robertson, the stock commissioner, who made the statement in a report submitted to the Ottawa Railway Club.

Grain Receipts At Lethbridge

Grain receipts at the head of the lakes for the period from September 1st, 1923, to June 6, 1924, totaled 226,613 bushels, as compared with 21,629,126 in the corresponding period a year ago, an increase of 942,914 bushels.

England Will Have Another Shortage

Natural Resources Bulletin

Calcium Carbide Was A Discovery Made By A Canadian

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

Amongst the great inventors and discoverers of new processes and methods in the world, the name of Thomas L. Wilson, the discoverer of calcium carbide, should be prominent. The discovery of calcium carbide is a discovery of the greatest importance, and it is a discovery which has changed the world.

The most general use for calcium carbide is as an illuminant. When calcium carbide is burned in contact with water, acetylene gas is formed, and this gas produces a light that is very bright and clear.

As a fertilizing element, calcium carbide is of great value. It is a source of calcium and carbon, and it is a source of energy.

The care of livestock during the winter months of autumn, and when the weather is cold, is of great importance. The farmer should be careful to keep his livestock in good health.

The storage life of an apple depends upon the care which is given to it. The apple should be stored in a cool, dry place, and it should be protected from the air.

Careless or improper methods of storage may result in a loss of the apple. The apple should be stored in a cool, dry place, and it should be protected from the air.

The farmer should be careful to keep his livestock in good health. The farmer should be careful to keep his livestock in good health.

The farmer should be careful to keep his livestock in good health. The farmer should be careful to keep his livestock in good health.

W. CHARLES WORTH.

Why does a hen cackle?

—because Mother Nature makes her children "nest" when they have done what she wants them to do. Hence the hen, relieved of her burden of eggs, raises her voice in a loud, clear note of satisfaction.

Puretest
Glycerin and Rose Water

brings happy relief to sore chapped hands and face. Washes thoroughly and delicately cleanses with rose hooquet.

PURETEST GLYCERIN is the most obtainable, made just a little purer and clearer by the best modern processes.

Two of 200 TROTTOP preparations for health and hygiene. Every item the best that skill and common sense can produce.

Here and There

Radio stations are to be established near Montreal and Vancouver as links in the Empire wireless station program as the result of arrangements just completed between the British Government, the Department of Marine and Fisheries of Canada and the affiliated Marconi company.

The Manitoba Pulp and Paper Company will, it is understood, erect a new plant at St. Boniface, near Winnipeg, Man. The company plans to expend \$5,000,000 of its \$20,000,000 capital on immediate operations, and to build a 200-ton newspaper mill, employing about 700 men.

Canada's trade is growing at a faster rate than ever before, despite the war. She now sells to 100 and buys from 77 countries. Her total foreign trade, in the calendar year 1923, reached \$1,918,564,789, an increase of 70 per cent in one year, and her interchange of commerce increased 70 per cent between 1913-14 and the past year.

John B. Thompson, noted sportsman and writer on the out-of-doors, widely and popularly known by his pen name of "Orank Ripley," is visiting the Canadian Pacific Railway camp in Ontario, giving 4 months of his time to the study and collection of birds and their habits, as well as free ranging interests in general information on fishing and other outdoor subjects.

Creating a new record for the 45 years it has been in operation, Saskatchewan Co-operative Elevators has shipped over 100,000,000 bushels of grain through its combined elevators in the 1923-24 season, it is announced. The total of grain handled through terminal elevators for the 1923-24 season is 85,000,000 bushels.

The steel superstructure of the new Assiniboine bridge, which is to replace the destroyed bridge at the famous shrine, has now been completed and it is expected that by next July the exterior of the church will be completely finished. It is not anticipated, however, that the building will be finally ready until July, 1926. In the meantime, thousands of pilgrims continue to visit the shrine and several miracles have been reported.

Figures issued by the Department of Agriculture for the Province of Quebec indicate that the grain harvest last year was the best since 1914, over a period of 10 years. The value of the grain crop was over \$125,000 as was the case last year, only \$60,000 worth was necessary to meet this year's requirements. Hon. J. E. Caron, Minister of Agriculture for the province, basing his opinion on the present crop prospects, expects a still further improvement in the near future.

"Never has the opportunity for Canada's business in the Orient been so good as it is today," said Allan Cameron, Oriental Manager of the Canadian Pacific Railway, in Montreal recently. "It is the fact that the general volume of business in China and Japan is somewhat below normal owing to both local and world conditions but that the large share of Oriental trade that opportunity will pass and hence, the time will be the business."

Following its success at the Bait-Box Empire Exhibition, the Canadian Pacific Railway is arranging to exhibit its diesel locomotives at the Ontario Exhibition in Toronto, Ontario, having a painted background slaty by air-line, a feature of which will be to move and direct moving through the forest and an attendant guide to give information to enquirers. A full-sized model of the front of a Canadian Pacific engine and other things illustrating of the company's many activities will also be shown in Toronto. Wonderful electrical models depicting Canadian winter sports, round-the-world cruises, etc. are slated for Quebec, Sherbrooke, London and North Bay.

The official Railway Guide, in connection with the Air Canada, which connects with the Canadian Pacific Railway at Angliers says: "So far as we are aware this is the first instance on this continent where interchange of passenger traffic between railways and air-line has been established."

In his address to the Associated Advertising Clubs of the World, at Winnipeg, July 17th, H. W. Beatty, president of the Canadian Pacific Railway, stated that the amounts spent on colonization by the Canadian Pacific Railway and the Canadian Government from the year 1881 totaled, respectively \$67,600,000 and \$35,000,000.

During the last four years the Canadian Pacific Railway has landed some \$5,000,000 worth of seedlings. Last year this company inaugurated the lunch-counter car, which afforded facilities hitherto unknown, and, although perhaps not as a direct result of the war, over 30,000 men travelled in special trains over Canadian Pacific lines.

The unveiling of a monument to Tom Wilson, earliest guide in the Canadian Pacific Railway, took place at a meeting of the two hundred and six members of the Trail Riders of the Canadian Rockies at Yoho Camp. Mr. Wilson, who was present at the ceremony and now sixty-five years of age, resides at Henderson, B. C., near Lake Louise and the Yoho in 1880.
